

Billing & Payments

This section is for managing the workspace's subscription plans, credits, and payment methods. All payment-related information is strictly managed for security.

1. Subscription History

A menu to check and manage the current subscription status of the workspace.

  .png

- **Current Plan:** You can check the subscription plan currently in use and, if necessary, upgrade to a higher plan or cancel the current subscription.
- **Registered Payment Method:** You can register a payment method for recurring subscription payments.
 - **Security Notice:** Only the **Workspace Owner** can register or change payment methods; this area is not visible to other members.
- **History:** You can review the past subscription payment history of the workspace. Subscriptions are automatically renewed every **30 days** by default.

2. Credit History

Manage the status of credits used for quantum jobs and server usage within the workspace and track the consumption flow within the organization.

  .png

- **Credit Status:** Check the remaining credit balance in real-time. If credits are insufficient, you can purchase additional credits via the **[Purchase]** button.
- **Credit History:** You can view all records of credit recharges (purchases) and usage (deductions).
 - **Organization Consumption Monitoring:** It provides detailed logs of **how all members within the workspace have consumed credits** (e.g., quantum server usage, quantum job submissions), allowing for transparent cost management and tracking at the organizational level.

3. Payment & Refund History

Monitor all financial transaction records that occurred within the workspace.

 .png

- You can collectively view all **Purchase History**, such as subscription payments and credit recharges, as well as **Refund History** resulting from cancellations.
